

Inspection Notice Placards

What? Where? Why?

Every Champaign-Urbana food establishment is required, by ordinance, to display recent food inspection results by posting a color-coded Inspection Notice placard near the food establishment entrance or other approved location. Placards can be seen at restaurants, grocery stores, food trucks, concession stands, day care kitchens, hospital kitchens, school cafeterias, correctional facilities, food pantries, nursing home kitchens, etc.

The posting of Inspection Notice placards is being used to help promote consumer awareness and education, and to encourage food establishment operators to use proper food safety practices.

Green Placard – Satisfactory Compliance

A green placard means the food establishment was found to be in satisfactory compliance with the ordinance and applicable rules and regulations.

Yellow Placard – Food Safety Alert

A yellow placard means less than satisfactory compliance. An opportunity is given to improve compliance (time for owner/manager to make corrective actions), with a follow-up inspection required to verify improvement to a satisfactory level.

Red Placard – Closed

A red placard means the establishment is out of compliance with the ordinance and applicable rules and regulations to the extent that it poses an immediate threat to public health or a failure to act resulting in health permit suspension (e.g., did not pay health permit fee).
